EDITO

Nous sommes heureux de vous proposer cette année un tarif entièrement revisité.

Facile d'utilisation, ce catalogue est organisé par gamme, puis par série avec une présentation identique pour chacune d'entre elles : une photo de la collection, puis toutes les déclinaisons des lavabos, douches, bains, WC & bidets et accessoires.

Cette année, nous vous présentons également deux nouvelles collections, réalisées en partenariat avec des designers et artisans : la série Transatlantique, dessinée par le designer Martyn Lawrence Bullard et la série Cristal&Bronze by Franck Benito, en collaboration avec Franck Benito, tailleur de cristal de renom.

This year, we are pleased to offer you a completely revised pricelist.

Easy to use, this catalogue is organized by range, then by series with an identical layout for each of them: a photo of the collection and all the variations of washbasins, showers, baths, WC & bidets and accessories.

This year, we are also launching two new collections, created in partnership with designers and craftsmen: the Transatlantique line, designed by Martyn Lawrence Bullard and the Cristal&Bronze by Franck Benito line, in collaboration with Franck Benito, well-known crystal cutter.

COLLECTION TRANSATLANTIQUE

Inspiré par les plus luxueux paquebots qui reliaient l'Europe à l'Amérique du Nord dans les années 30, Martyn Lawrence Bullard a créé Transatlantique.

Une collection qui évoque l'art de vivre sophistiqué et raffiné qui émane de ces longues traversées de l'Océan Atlantique. À travers son design élégant, géométrique et épuré, la collection Transatlantique transforme votre intérieur en un espace unique.

Inspired by the heydays of oceanic travel on luxury liners that took the long journeys from Europe to North America during the 1930's, Martyn Lawrence Bullard has created Transatlantique, a collection which evokes the sophisticated and refined lifestyle experienced during these crossings of the Atlantic Ocean.

Through its smart, geometric and streamlined design, the Transatlantique collection can transform any interior into a unique space.

COLLECTION CÉLESTE

Le croisillon « Céleste », fabriqué spécialement pour Cristal&Bronze, reflète l'excellence du savoir-faire dont les Verreries de Bréhat ont le secret. Ces pièces en verre soufflées à la bouche sont fabriquées une par une par des artisans d'exception.

The "Céleste" handle made of gold and silver foil set in blown glass, is the reflection of an ancestral and unique know-how. The "Verreries de Bréhat" keep the secret of the way they manufacture that piece especially for Cristal&Bronze. Those hand-blown glass pieces are made one by one by amazing and gifted craftsmen.

COLLECTION CRISTAL&BRONZE BY FRANCK BENITO

Dans l'optique de donner à ses collections d'accessoires en cristal taillé un prestige renouvelé, Cristal&Bronze décide de confier, pour la première fois, la signature de son cristal à un artisan renommé. Franck Benito a été choisi pour revisiter les gammes classiques de Cristal&Bronze grâce à deux tailles de cristal contemporaines, qui font sa réputation : les tailles « Nid d'abeilles » et « Bambou ». Dans l'atelier de Franck Benito, les motifs sont transposés au feutre ou au pinceau sur la forme en cristal et taillés avec une grande précision par des meules traditionnelles en grès ou en liège. La maîtrise de cette taille, dite à « main levée », permet d'obtenir des jeux fascinants de lumière, de reflets, de transparence.

Cristal taillé par Franck Benito

In order to give its cut crystal accessories collections a new prestige, Cristal&Bronze decided to entrust, for the first time, its crystal signature to a renowned craftsman. Franck Benito has been chosen to revisit the classic Cristal&Bronze ranges thanks to two contemporary crystal cuts, which have made his reputation: the "Nid d'abeilles" and "Bambou" cuts. In Franck Benito's workshop, the patterns are transposed with a felt pen or a brush onto the crystal shape and cut with great precision by traditional sandstone or cork millstones. The control of this cut, called "freehand", enables to obtain fascinating effects of light, reflections and transparency.

CONSEILS D'ENTRETIEN

Les articles Cristal&Bronze ne nécessitent en principe aucun entretien spécifique, sauf bien entendu l'opération d'essuyage à l'aide d'un chiffon doux ou d'une peau de chamois, après utilisation.

Il faut toujours éviter de laisser sécher des gouttes d'eau sur le métal. Après l'évaporation, il restera en effet une marque provoquée par l'adhérence de microcristaux de sels minéraux contenus dans l'eau domestique et notamment du calcaire.

Traitées à temps, ces marques disparaîtront par simple frottement à l'aide d'un chiffon doux imprégné d'eau, adouci par un produit ménager détartrant tel que du vinaigre blanc.

Si ces marques persistent :

- Sur les surfaces brillantes : Utilisez un produit de type « Poli Royal », disponible dans la catégorie « Pièces détachées » de ce catalogue.
- Sur les surfaces mates : Frottez doucement avec une éponge non abrasive, sans produit de lustrage.

N'utilisez jamais de produit chimique corrosif ou abrasif car ils pourraient endommager la finition.

PRISE EN CHARGE DE LA GARANTIE

Aucun retour de marchandises ne pourra être effectué sans l'accord préalable de Cristal&Bronze. Les envois doivent être faits par l'expéditeur en port payé et adressés à Cristal&Bronze. Les produits doivent être emballés de manière à ne causer aucun coup ou détérioration. À réception, les produits seront expertisés.

- Si le défaut est imputable à Cristal&Bronze, le produit sera soit réparé soit remplacé.
- Si le défaut n'est pas imputable à Cristal&Bronze, un rapport d'expertise sera rédigé ; le produit pourra alors être réparé ou remplacé aux frais de l'expéditeur après acceptation. Les frais de dépôt et de repose ne sont pas couverts par la garantie.

Toute détérioration du produit pour retour ne sera pas couverte par la garantie.

CARE AND MAINTENANCE

Cristal&Bronze products do not require any specific cleaning apart from wiping with a soft cloth or a shammy after use.

However, please avoid allowing water droplets to dry on metal. Indeed, a stain would remain after drying because of the micro-crystals contained in the mineral salts in domestic water and lime scale in particular.

If caught early enough, those marks will disappear by simply rubbing with a moist soft cloth, softened by a household scale remover such as white vinegar.

If those stains remain:

- On glossy surfaces: Use a "Poli Royal" type product, available in the "Spare Parts" category of this catalogue.
- On matt surfaces: Gently rub with a non-abrasive sponge. Do not use polishing product.

Never use corrosive or abrasive chemicals as they may damage the product's finish.

WARRANTY TERMS

No return of goods may be made without the prior agreement of Cristal&Bronze. Shipments must be made by the sender, prepaid and addressed to Cristal&Bronze. Products must be carefully packed so that they do not cause any damage. Upon receipt, products will be appraised.

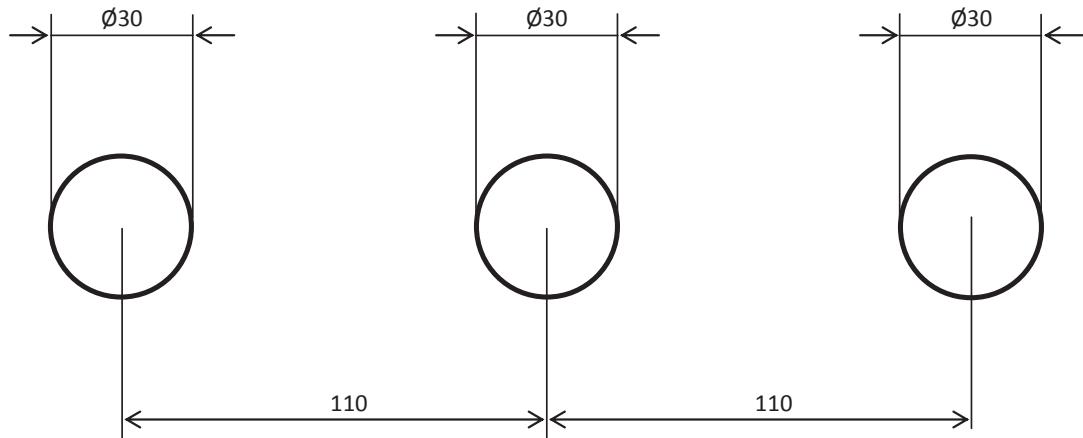

- If the defect is attributable to Cristal&Bronze, the product will either be repaired or replaced.
- If the defect is not attributable to Cristal&Bronze, an expert report will be made. The product could be repaired or replaced at the sender's expense upon approval. The warranty does not cover dismantling and refitting costs.

Any deterioration of the return product will not be covered by the warranty.
